

**JOIFF APPROVED**

**CONFINED SPACE ENTRY / ACCESS TECHNIQUES**

**2 Days (minimum)**

Course duration can be extended to incorporate suitable site specific exercises

**Pre Attendance Requirements:**

- The Employer must ensure that Students nominated to attend this Course are physically, medically, technically and mentally capable of meeting the requirements of the Course.
- Students should be qualified BA Wearers at least to the requirements of the JOIFF “Respiratory Protection for Confined Spaces” Course.

**Suitable for:**

Workers who are required to enter confined spaces.

**Aim:**

To make students aware of the potential hazards associated with work in confined spaces, and to detail safe practices for entry and access to such environments.

**Course Outline:**

**Classroom (C)  
Practical (P)**

| Subject   |              | Recommended minimum duration |
|---|--------------|------------------------------|
| Introduction to Confined Space Entry / Access           | C            | 15 mins.                     |
| Legislation, Standards and Guidelines.                  | C            | 1 hr. 30 mins                |
